

TASKI Jontec Terranova

Crystallized marble maintainer

Description

Spray-crystallizer for the maintenance of calcareous stone floors. Used with a steel wool pad and a single disc machine the product provides a high gloss on marble and other calcareous stones without building a film on top. By crystallizing marble floors they get more wear resistant and the acid sensitivity is reduced. Can also be used to re-crystallize traffic areas of previously treated floors.

Key properties

- Fluorosilicic acid-based formulation
- Produces a smooth, high gloss surface
- Especially formulated for efficient spray crystallization
- Hardens the surface through crystallization

Benefits

- Intensifies the natural appearance of the stone
- Facilitates daily cleaning and maintenance
- Provides a slip resistant, glossy finish
- Prolongs grinding intervals

Use instructions

Dosage:

Jontec Terranova is ready to use; apply undiluted.

Application:

Treat only thoroughly clean (free of all soil, wax, polish, oil and grease) and completely dry floors. Shake well before use.

Fill the product into a spray device and spray sparingly (2-3 triggers/m²) onto the floor. Treat not more than 2m² at the time. Distribute in circular motions with a single disc machine equipped with a steel wool pad until the product is completely absorbed. For more shine, recrystallize (2-3 triggers/m²) the area. Rinse the floor thoroughly with a pH-neutral cleaner to remove pad residue. Buff with a single disc machine for even more shine.

Important:

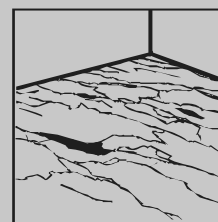

Apply only onto calcareous stone floors, e.g. marble, travertine, terrazzo. Properly store/dispose of steel wool pads after use – danger of spontaneous combustion.

Technical data

- | | |
|----------------------------|--------------------------|
| • Appearance: | colourless, milky liquid |
| • Relative density [20°C]: | 1,10 |
| • pH-value neat: | ≤ 1,0 |

The above data is typical of normal production and should not be taken as a specification.

Safe handling and storage information

Safe handling:

Full guidance on the handling and disposal of this product is provided in a separate Material Safety Data Sheet.
Only for professional users / specialists.

Storage Information:

Store in original closed containers away from extremes of temperature

Available pack size:

2x5L.
