TASKI® Forward DC

E2e

Germicide and Disinfectant Cleaner

An effective germicide and disinfectant, containing 762 PPM of a potent quaternary germicide which is effective against a wide spectrum of microorganisms when used at a 1:20 dilution. This effectively kills the following bacteria-Staphylococcus aureus, Salmonella choleraesuis and viruses HIV-1 (Aids) Virus.

Key Properties

- **Powerful Cleaner**
Cleans up the heaviest soil, mineral deposits and soap scum - even in cold water. Power does not fade out with dilution
- **Broad Spectrum Activity**
Provides broad spectrum efficacy of microorganisms, including Staphylococcus aureus and Salmonella choleraesuis
- **Versatile**
Can be used as a disinfectant and heavy-duty cleaner at 1:20, as a general-duty cleaner at 1:40
- **Provides Positive Odor Control**
Kills the organisms that cause odors and works as an odor counteractant to further eliminate other odors not associated with bacteria
- **No Rinse Formula Will Not Damage Washable Surfaces**
Strong cleaner, but easy on floors and painted surfaces when used as directed
- **Chemically Stable**
Stable from 40°F to 100°F (germicidal properties not affected by storage in this temperature range)
- **Biodegradable**
All ingredients readily or inherently biodegradable by OECD standards

Designed For

- Effective on floors, walls, ceilings, equipment – any hard, non-porous surface
- Suitable for use in Food Plants when rinsed with potable water

CLEANER DISINFECTANT
